This side of sunshine there's music for all young at
heart
A vibrant kingdom where the stride of laughter's apart
Think of a place where singing and laughter and smiles
are free
Singing music can get you there, just follow me

Do-do-do-do-do-do-do (hmm hmm hmm)

This side of sunshine where life makes it hard just to
breath
Open the windows of your mind and then you will see
That you can laugh this side of sunshine and smile with
me
Singing music can get you there just sing with me-e-e-
e-eeee

(layered chorus sung in a round)

1.) Sunshine, sunshine (repeat)

2.) This side of sunshine with me singing free joyusly
(repeat)

(Soloist adlib to end)
