

Roy Clark "Since December"

Visit "[Since December](#)" on MotoLyrics.com

Did she always like to go off on her own
Was she really always tired when she came home
You don't owe me any favors but would you please try
to remember
You see I've only known her since December.

Did sad songs did they always make her cry
And truthfully did you ever catch her in a lie
It would help a lot though you may not care to
remember
You see I've only known her since December.

I'm not sure it's right for me to come to you this way
But you know all I stand to lose and did you lose her
just this way
Did her mind sorta drift when she just heard the word
remember
You see I've only known her since December.

You see I've only known her since December...
