You're my soul song my everything-that-I-do song  
Pick-me-up-when-I'm-blue song that's why I sing all the  
time  
You're my soul song that's why I call you my solid-gold  
song  
Nothing in the world could ever go wrong as long as  
you are mine.

Never in the world have I seen anybody like you in all  
my time  
You give me that feel good feelin' through and through  
and it's so fine  
I'm up with the sun cause I don't wanna waste it  
I love you so much I can almost taste it  
I can sit still when I look up and see you coming I start  
humming, hmm.

You're my soul song my keep-me-safe-from-all-harm  
song  
My shelter-from-all-harm song that's why I sing all the  
time  
You're my soul song my keep-me-warm-when-I'm-cold  
song  
Nothing in the world could ever go wrong as long as  
you are mine.

You're my soul song my everything-that-I-do song  
My pick-me-up-when-I'm-blue song that's why I sing all  
the time  
You're my soul song that's why I call you my real long-  
gone song  
Nothing in the world could ever go wrong as long as  
you are mine...
