You're always brand new to me  
You love can never fade  
Bless your little ole heart  
You make life one happy day.

I feel your arms around me  
Though I am far from you  
I close my eyes and tell you things  
Your always brand new.

Heatsick, lonesome, weary, blue  
Give up, maybe, if it weren't for you.

From heartbeat to heartbeat  
I'm gonna live my life for you  
Bless your little ole heart  
Your always brand new.

--- Instrumental ---

Heartsick, lonesome, weary, blue  
Give up, maybe if it weren't for you.

From heartbeat to heartbeat  
I'm gonna live my life for you  
Bless your little ole heart  
You're always brand new.

Bless your little ole heart  
You're always brand new...
