"Every Inch Of You"

Oh baby I was a loser
Several years on the dole
An Englishman with a very high voice
Doing rock and roll
There are seas of sleeveless t-shirts
Queues around the block
And every man, woman and child
Wants to suck my cock
I'm in a band with my brother and my two best mates
I never leave the house without my SM58
Every Inch Of You
You know I'm going to work it
Every Inch Of You
I wanted to be a doctor
I wanted to be a vet
Until I heard 'Communication Breakdown'
On a TDK D90 cassette
My entire adult life was spent defying the man
Now I got the whole arena eating out of my hand
Every Inch Of You
You know I'm going to work it
Every Inch Of You
I've attended my last lecture
Slept through my last class
You can take your qualifications
Shove them up your ass
Every Inch Of You
You know I'm going to work it
Every Inch Of You
