Anticipation

Too much to bear

Maybe I'm crazy but there's something in the air

There's something in the air

Come on people, tell me how you feel

You want a good time

Well you got yourself a deal

You got yourself a deal

It's time to make a brand new start

Take off your thinking cap and listen to your heart

Everybody have a good time

Everybody have a blast

Everybody have a good time

For tonight may be our last

You think you're cool, well I'm not so sure

Come on baby leave your ego at the door

'Cos you don't need it any more

Where is all this fighting getting us?

Where's the fire baby? What's the fuss?

Everybody have a good time

Everybody have a blast

Everybody have a good time

For tonight may be our last

Electric guitar

Where fools rush in, where eagles dare

You will find us already there

We live the same dream every night

Having a good time 'til the morning light

Everybody have a good time

Everybody have a blast

Everybody have a good time

For tonight may be our last

Yeah tonight may be our last
