Angel, on a wing and a prayer, we made it  
It's got to mean something, inside me says  
We were brought together  
By the Universe's forces that you can not find  
Completely irresistible, entirely right  
You're incandescent like a star in the sky at night  
O-o-oh

Can't believe it's not love we're making  
I must have been mistaken  
Can't believe it's not love we're making  
I'm startled, I'm shaken  
It's soft to the touching and it's sweet on the  
tongue  
And now, I'm gonna need a second opinion  
O-o-oh

You said you love me but you were faking

O-o-oh  
Uh u-u-u-u-u-yeah
