Orbison/Melson

Am i blue since you said forget
Forget that we ever met
It's too late, oh too late
Can't forget
This crazy thing was just a fling
But oh, i can't forget

Don't want it to end
Can't forget
Can't leave it, can't take it
Can't forget

Just remember, oh i still love you
Don't forget
It's over and done, i'm the lonely one
Because i can't forget

It's over and done, i'm the lonely one
Because i can't forget
