Coffer cafe's dizzy with city lights  
Concrete sidewalks busy with friendly fights  
But that's alright, baby, it's alright  
Come, go with me and you will see  
City life, city life

Loud paper boys yelling yesterday's news  
A peddler man selling what you can't use  
That's alright, baby, it's alright  
Come, go with me, you will see  
City life, city life

I need you when the sun goes down  
You pick me up when you're around  
Come on, come on now, we can have a good time  
This town ain't much unless you're here with me

It's like a woman  
Crazy just like a puppy, lazy  
Just like a pretty jealous wife  
I can't get free from city life

Secluded bars humming behind the scenes  
Hot wild guitars strumming, promising dreams  
That's alright, baby, it's alright  
Come, go with me and you will see  
City life, city life

I don't want to be alone  
Stay with me now, don't go home  
It's a date, we'll stay out late and party  
City life's okay when you're with me

It's like a lion sleeping  
Just like a willow weeping  
A melting pot for fun and strife  
Can't get away from city life

City life, baby, city life  
It's alright, baby, it's alright  
City life
