Roy orbison /joe melson

Daydream, daydream, daydream
Well, day-day-daydream
Well I got troubles on my mind
And time on my hands and I'm lonely
I leave the world behind
And I spend all my time with you only

Well there's a place I know
Where we can go
So we can be alone
Sometimes I live in a dream world of my own

Well here I go, away up high
And daydream, daydream, daydream
Well I run away on the milky way
And daydream of you

Well, when things are not so hot
And I've got the blues
I dream a lot
Yeah, when I'm not with you

Well it's so much fun to be the one
On a flight through fantasy
Well, when I dream
Yuo're always with me

Well here I go, away up high
And daydream, daydream, daydream
? ? ? ? ? , and I catch a shooting star
And daydream of you
You, you, you
You, you, you
