You tell me to find somebody new  
That you're not for me I'm not for you  
It don't matter if you're right or wrong  
It ain't no big thing just say, "So long"

It's been fun and laughter all the way  
I will live to love another day  
I will be alright, can't you tell?  
It ain't no big thing just say, "Farewell"

It ain't no big thing, I won't be blue  
Just so you're happy and your dreams come true  
It ain't no big thing, my losing you  
Just ain't no big thing, I'll get over you

It ain't no big thing to see you go  
It ain't no big thing that you don't know  
It ain't no big thing I've been lying  
It ain't no big thing that I'm crying  
It ain't no big thing that I'm dying
