I can paint a sunset across the sky of blue  
Only with you, only with you  
I can be a master at anything I do  
Only with you, only with you

I found the end of the rainbow  
My golden treasure too  
Only with you, only with you

The sun looks good in the morning  
And I love the night time too  
Only with you, only with you

All my world would end, dear  
My rising star would fall  
If ever I should lose you  
I would be nothing at all

All my world is heaven  
I'll be happy my whole life through  
Only with you, only with you
