"Spanish Nights"

Visit "[Spanish Nights](#)" on MotoLyrics.com

Harley Spanish nights are still on my mind
In a small cafe we danced all night away
Don't lose in love in time

When I left that day I heard you cry and say
If you find someone new you'll break your heart in two
You know what to do, come back I still be too
With Spanish nights and you

I can't forget the day, it's almost been away
Begging me to see a world not mend for me
Now my search is true, I'm coming home
To Spanish nights and you

Magic Spanish moons, sleepy afternoons
Fill my memory, walking handing hands
By the sea and sand, I know you'll wait for me

Feeling all alone, now I'm almost homeless
It's time I know I'll stay, the Lord has heard me pray
I have heard Him say, lover on your day
Bring your Spanish nights away

I can see the summer light enlights and holding you
On this Spanish nights
