Well it's so sweet and easy to love you
like I do yes it's true I love you
and it's so sweet and easy to want you
on my mind all the time say you're mine

I want you to say you'll always stay and be my love so
true
because I know if you ever go I won't get over you
Cause it's so sweet and easy to love you
like I do yes it's true I love you

Instrumental

Well it's so sweet and easy to love you
like I do yes it's true I love you

and it's so sweet and easy to hold you
close to me, lovingly, tenderly

Now I will never love another I want only you
I want to say in every way that you're my dream come
true
Cause it's so sweet and easy to love you
like I do yes it's true I love you
I love you, I love you
