We walk in shadows
We talk in shadows
We date in shadows
Dark and cold

But wait, it will be alright
Wait, baby hold me so tight
I hate to break her loving heart in two
But wait, I can't stay away from you

I promise you I'll be with you
Tomorrow night
I have to wait
Until the time is right

Yeah, wait a little longer now
Wait be stronger now
Wait a little longer now for me

Oh, what you do to me
Wait now until I am free

Yeah, yeah, yeah, wait a little longer now
Wait be stronger now
Wait a little longer now for me

Wait, wait, wait a little longer
Wait wait, try to be stronger

Yeah, wait, wait, wait
Come on, come on, girl
Yeah, wait, wait, wait
Try to be strong girl

Yeah, yeah, yeah
Wait, wait, wait
