My head is in a spin  
Is it just the mood I am in?  
Could it be your kiss?  
I never felt like this

Wondering, wondering  
I wonder what to do  
Wondering, wondering  
I wonder what to say  
Will your love be true  
Or will you run away?

When you have been alone  
Without love, all alone  
You wonder what you'll feel  
When new love comes along  
Is it really real?

I wonder  
I wonder

Wondering, wondering  
I wonder all the time  
Wondering, wondering  
Are you really mine?  
Will your love go on  
Or will I wonder till the end of time?
