You fool you, that's what my friends all say
You fool you, don't throw your love away
You fool you remember yesterday
Your baby walked away, away from you

So there you go, come running back again
Stars in your eyes, be leading lights
Your hungry heart still longs for love
You think you'll win and so you pretend

You fool you, that's what my friends all say
You fool you, don't throw your love away
You fool you remember yesterday
Your baby walked away, away from you

Ooh ooh ooh ooh, ooh ooh ooh ooh
Ooh ooh ooh ooh, ooh ooh ooh ooh
You fool you
