I get this feeling every time that you come near
Cause you've got moves that you won't show anyone
hear
Just look to me, cause there ain't nothing to fear
You can't fool us, no, you're not fooling anyone
It's a party, so act like it's one
You come and see us all having fun, woah oh oh
You keep on moving, keep on moving

And so you dance, dance, dance the night away
And you move and shake as if to say
Oh Babylon, I miss you when I am gone
So hold on, and I'll be back before to long

It's midnight and the party's starting to clear
You've got your arms rapped around everything you
hold dear
Just look to me, cause there ain't nothing to fear
You can't fool me, no, you're not fooling anyone
We can't help, but fall in love
You come and see us all having fun, woah oh oh
You keep on grooving, keep on grooving
