Each night as I go wandering
Down the street of tears
I think about the love we shared
Throughout our teenage years

Believe me, ooooooh, wah ooooooooooh
Wah ooooooooooh, believe me

Just because you said goodbye
Do you think that I will die
Just because you broke my heart
Now you thinking you're so smart

All the kids in town will know
They will know you hurt me so
Did you have to tell them all
That I still love you

I love you so
Can't let you go

If you return
Loves flame will burn

Just because you said goodbye
Do you think that I will die
Just because you broke my heart
Now you thinking you're so smart

All the kids in town will know
They will know you hurt me so
Did you have to tell them all
That I still love you-ooooooooooooou
Ooooooooooh wah ooooooooooh
FADE:
Ooooooooooh wah ooooooooooh
Ooooooooooh wah ooooooooooh
Ooooooooooh wah ooooooooooh
