"I Want You"

After party go out the beach
At home or on tv
Nothing could go wrong when you're with me
Catch your eye or catch a wave
At home or in la
Nothing could go wrong when you're with me
Baby baby close your eyes
Baby baby don't think twice
I want you I want you
Baby baby close your eyes
Baby baby don't think twice
I want you I want you
I want you want you want you want you

Die tomorrow die today
Either way we could say
Nothing could go wrong when you are with me
In the sky or on the ground
As long as I have you around
