Jesus Janey, don't go leavin' me here
I never meant to make you cry last night
You said I never tell you those wonderful things
That you've been searching for all of your life

And I might lift you up to let you down
And you might lose me when I fall downtown
After all, I'm all I care about
And that's got me scared as hell

Chorus:
Love, I wish I knew a thing about love
I wish that I could give you some love
I wish that I could feel a bit of love
Cause it's cold outside

Jesus Janey, we've been through this shit before
I'm gonna change the way I am real soon
But it ain't easy, I'm trying my hardest to fall
You'll never understand the way I feel you

And I might stick you up to tear you down
I think I want you more than ever now
After all, I'm all I care about
And that's got me scared as hell

(Chorus)

Drop by my spot and get high with me, baby, all the
time (2x)
Love, love, that something I keep running from (2x)

(Chorus)
