She got a body like what?
Make me wanna stick, but I can't get stuck
She's from the other side of town
She be callin' me up right now
Talkin' like, "Roz, how you like my style?"
I wanna say not, but not right now
I'm hot like the street that I'm walkin' down
"I wanna come by, are you gonna be 'round?"
Now she say yes and that's cool
I wonder if she feels it too
I know that when she smiles it's true
Lookin' at me, like, "baby, I'm so happy with you"

Chorus:

She's so excitable
Ask if she goes there
Oh, she's been there before
She's so excitable (2x)

She make me wanna run quick
She fly, like the ball that I kick
She's everything I want upstairs
In her heart, down there
And ain't nobody do it the same
I love the way she say my name
She call me up, like, "let's rock"
We do it 'till the morning 'cause we're so non-stop

Chorus:

She's so excitable
Ask if she goes there
Oh, she's been there before
She's so excitable (2x)
