You missed my morning smile today
Said you were running late
I hope your boss won't be too mad
Sometimes we gotta laugh
'Cause we've been struggling on our own
We don't need no more
But if it all comes down today
We'll always have the rain

Sunday afternoon
Running down the avenue
Young and free, stealing town
Then the rain came pouring down

Chorus:
Rain, how we'll always have the rain
We'll always have the rain (2x)

I feel like everything has changed
But why am I still the same
Maybe you don't fit no more
And I should be alone
Or maybe that's just my excuse
For giving up on you
But if it all comes down today
We'll always have the rain

Summer night, hand in hand
Raindrops falling in the sand
You and me and a bottle of wine
Making love into the night

(chorus 2x)
