Floating down the sea  
I'm living at the edge of seasons  
Take me to the water  
Life is tumbling down again

Take me to the universe  
I never learned to fly  
And all the little creatures  
Laughing in a very special way

All our thoughts gone to the ground  
But the world is going round and round andâ€¦.

Cruising lonely on the darkside of my life  
To be alone - yeah  
The new sun coloured amber striding for the place  
We call our home - yeah

I feel the end is near  
Childhood seeping through my finger  
Feel me here I got the ticket to a soul insane

The new sun coloured amber  
Striding for three different seas  
Bleeds me, kind it is it blinds me  
Like our kind I cannot see

All our thoughts gone to the ground  
But the world is going round and round andâ€¦.

Cruising lonely on the darkside of my life  
To be alone - yeah  
The new sun coloured amber  
Striding for the place  
We call our home - yeah

I never take it back to be on my own  
Don't be the fool, and just think twice  
On the street to nowhere all on my own
