I wanna pierce my brain!
(АННННННННННННН!!!)

I've got metal in my ears
A dozen rings of steel
My tongue is perforated
And I love the way it feels
My belly button and a nipple
Don't forget my nose
I'm running out of places
Where a dude can poke some holes

I'm gonna pierce my brain! (АНННННН!!)

I went down to the piercing parlor Said they'd pierce my brain They said I won't survive it So it had to be prepaid I had to put them in my will I hope they're satisfied They made me write a little note It saying suicide

I woke up with a headache And a bandage on my head I couldn't remember nothing About what I just did I don't regret my actions So don't go feeling sad 'Cause I'm working at the airport Screening people's bags

I pierced my brain!
