"Electronica"

Visit "[Electronica](#)" on MotoLyrics.com

We're here - the electronic age,
Computer rule and robot rage,
A sexless race, no him or her,
They call it Electronica.

Hell / High water makes no change,
We're digitally out of range.
Accelerated hyper-race,
Daily goals for us to chase.

Electronica - A land of ease,
Electronica - No A's, no B's,
Electronica - Just naught and one,
Binary lives kill analogue.

View-determined vision cards,
Ultrasoft and microhard,
Microchips at supertime,
Not thrice to thine or thrice to mine.

Electronica - A land of ease,
Electronica - No A's no B's,
Electronica - Just naught and one,
Binary lives kill analogue.

Electronica - A land of ease,
Electronica - No A's no B's,
Electronica - Just naught and one,
Binary lives kill analogue.
