"Send Love"

Let them seize the day
Let them lead the way
Therefore come what may
Watch as counterparts are counting parts
And everybody's got something to
Say you over there
You'd best be aware
Don't you overbear
'Cause it ain't very becoming
Being brought up
Being caught up
Being free

And if you see her
Send love
Tell her I'm over here above
And if your mind sometimes won't let that fade away
And if you see her
Send love

Let them seize the prey
Let them have a say
Tomorrow's gone today
And deliverance is relevant
If you have really got something to
Steal your sweet demise
Therefore compromise
Juxtapose the prize
While the counterfeit is counting it
And no one's got a head for what is real
