Come on!

I want to see the sun come up,
I want to see the curtain fall,
I want to see the sickness spread,
I want to see the war pigs crawl!

Not the black sheep,
The black dog of the family,
Waiting to die,
And when I go I'll take you with me,

Cowboys from hell,
Sniff glue and worship satan,
Me loco,
Entombed but not forsaken,

I want see the sun come up,
I want to see the curtain fall,
I want to see the sickness spread,
I want to see the war pigs crawl!
