"Siempre Manana"

We've been together like sister and brother
Sharing the laughter and tears in our lives
As we grew older, I knew that no other
Would ever come close
Keep me warm through the night

You had to leave, I said I'd be waiting
And yours to this day I belong

Siempre manana, tomorrow forever
Say, we'll be together, come back into my world
Siempre manana, tomorrow forever
Vuelve a mi vida, come back into my world

I need my lover mi vida contigo
Together forever, my baby be mine
Kisses that burn me, tu besos del fuego
Take me my love, I'm yours for all time

Come be my world, this fire inside me
Don't keep me waiting too long

Siempre manana...

The days and the years may go by
The beat of my heart is so sure
I still hide the tears that I cry, mi amor secreto
