You're the one I've been waiting for  
Take me down to the sandy shore  
Summer love would be good for me  
If you would be my summer love.

It's the start of my happiness  
And the end of my loneliness  
Summer love could be paradise  
Or twice as nice, my summer love

The tides roll by and waves of love  
Will sweep into your heart  
If that's the way it's meant to be  
Well never, never part

By the time that the leaves turn brown  
Other loves may come tumbling down  
Ours will last through eternity  
If you will be my summer love
