Let's light the Christmas tree
Set it's branches glowing
Bright lovely Christmas tree
To each heart so dear
Soon on the winter air
Christmas bells will ring
Soon children everywhere
All the Christmas songs will sing
But somewhere across the snow
Hearts may still be lonely
Longing for those they love
For those so far away
So let's light a Christmas tree
So wond'rous, bright and gay
A light to shine through all the world
On Christmas day
