Open the door, shut the goddamn door!  
I got a herd of dead hoes on my goddamn floor!  
And if you park too close then yo car gets towed!  
This ain't yo house, nigga! (House, nigga!)

What kind of world is we livin' in?  
Where every girl showin' titties to the world,  
Getting views by the millions  
8 niggas sucking on hillyo, make a billion!  
Now he turns stars out of everyday civilians!  
It so happens they haven't any talent  
Their characters are faggots  
Jacked off by their parents!  
Now every little hack that got a mic with his allowance  
Is singing whack faggot shit, while faggots fuck his  
salad!

I was sent here with a mission, so everybody listen!

You in Rucka's World now!  
Fuck all you clowns!  
You in Rucka's World now!  
I'm unloading rounds!  
You in Rucka's World now!  
Don't start no shit!  
Cuz I'm 'bout to blast off  
On your mom's old tits!

Youtube tried to ask me!  
125 billion view gone bye, bitch nigga! Who's counting?  
I'm wanted dead alive for unlimited bounty!  
In every civilized town, village and county!

They're finally getting high at my own funeral!  
Pull the bullet out my brain and shove it into your skull!  
Rip my dick out and fuck you in your grandmother's  
bathtub!  
You niggas make male cum look like Alfalfa!  
Without me, you bitches couldn't even survive!  
You bitches need me to squirt cheese in your eyes!  
The world hates me, but I see through the lies!  
Light a flame through your town. Boomhouse, surprise!
