Blasphemy squad, thriving on hate, in the warfare state, like piss in a pod. -ch- never forget, never ever forgive, wash your mouth out with pope. death love god squad + the babies of christ, pin you all down, in their burial mound. -ch- never forget, never ever forgive, wash your mouth out with pope. no need to feed, from corpus christi, no need to cower, inside you's the power. -ch-never forget, never ever forgive, wash your mouth out with pope. hairy white mouse + the rubber arch bish, the crazed entourage, their immoral barrage, they censored this line with a brick through my head, washed my mouth out with pope.
