There is no other, no second thing when I am the only  
reality  
The universe, known and unknown, is a manifestation  
of  
Brahman  
That reality revealed by the Shruti and echoed by the  
Smrti  
Confirmed by my self experience, beyond disputations

Like the One Sun,  
But many reflections,  
I am that one Light

In my vision there is only I, that which is the  
parabrahman  
There is no experience other than the Self  
What can displace the vision that conforms to the sole  
Existence!  
What can negate that which is self-established!

Advaita Samrajya

[Solo vinod devan]

I am the Light of Lights, I am the God of Gods  
I am the very satyam on which the universe rests  
In me you exist. In reality you don't exist at all  
I lend my existence to this world phenomenon
