[prostitution of the world]

dads abusing newborn blood prayers  
from a priest in heat a piece  
of body cut alive sold out for  
the highest price

a god dethroned is fucking blind  
stupid people fucked up minds

evolution  
prostitution of the world  
evolution  
disillusion of us all

weapons kill your loves and lives  
triggers pulled by children's eyes  
politicians sell their souls  
promise shelter raping minds

feels like violate the dead  
shoot the bullet in your head

evolution...

getting obscene on the dead feel desire  
for young flesh watch your bloody  
lieing screen sacrificed for satans dreams

want to absolute your sins  
just kneel down and suck my skin

evolution...
