You love the world I own  
Where all our hate is blown  
Away to distant spheres  
I call our real life

Flying together  
Flying together  
Flying together  
Into my dreamy world

We'll walk among the clips of fire  
The heat to feel  
We'll wander all night long  
In lands of dreams

Flying together  
Flying together  
Flying together  
Into my dreamy world

Please fly together  
Please fly with me  
We'll fly together  
Into my dream

We'll see magic summer rain  
Your skin to cool  
I'll show you hidden spheres  
I, the mental traveller
