Follow then rain into the end of paradise  
where the eternal dark's crying so near  
cold wind plays with my minds  
when the fog appears and lovely words  
will change to screams

When I sleep I mount and fall  
untrue flowers sprout and die

Feelings stained with blood  
They don't endure this cill  
engrained in deepest grief  
silent, sad farewell

The daybreak drowns in my tears  
a last spark mirrors on blackened seas  
feeble waves whisper through the night  
in the calm I saw angel die...

I cry - left alone  
my grave - I can't evade  
now I watch the stars  
and silence crawls to me  
my frozen tears will fuse and  
leave my helpless eyes  
implied I wait and stare  
a view into my past

I cry - left alone  
my grave - I can't evade  
sniff a glacial breath of fear  
wearyness befalls your eyes  
sadness thrives on tonely thoughts  
they never fade away to dust  
raven moves his wings  
it flies into eternal sleep  
thorns will bar the path to wake

pain is beaunting me, obfuseating me  
I will find the dawn - redemption from my grief  
fear is blazing up and penetrating me  
darksome thoughts now close my eyes

mischief is bright - shadows on my doom  
can't prevent my death.
