One more chain I break
To get me closer to you.
One more chain does the maker make
To keep me from bustin' through.

One more notch I scratch,

To keep me thinkin' of you
One more notch does the maker make,
Upon my face face so blue

Get along little doggies
Get alone little doggies
One more smile I fake
I try my best to be glad
One more smile does the maker make
Because he knows I'm sad

Oh lord how I know
Oh lord how I see
That only the maker can make a happy man outta me

Get along little doggies
Get along little doggies
Get along...
