Watch me slowly explode  
In an old, cold prison  
Take the painting off my wall  
And I'm back where I began  
This story has a lot of turns  
And alternative endings  
Pick me up and glue me together  
To the misfit I used to be  
The beginning of tomorrow  
Is a blessing for today  
The end to my sorrow  
And an end to this play  
But I change and so will you  
In your old, cold prison  
I'll take the painting off your wall  
Take you back where you began  
This story has a lot of turns  
But there's just one ending  
If I reach out, did you fade away  
Do you stand up and fight
