The extension of the black in the gulf of universe  
The vastness of the space setting  
The countless antitheses  
Depressively bleak depths  
Glimpse of the way in which world of dreams  
Borders upon the real  
Bury the dark irrational  
Side of your queasy being  
I'll rise to destroy you  
In the shreds of liquid dementia  
Wreak that havoc upon the outness  
Rip the mask of chronic blindness  
Highly violent blindest nature  
Inscrutable malice sine wing it  
All my soul within me burning  
Fantastic terrors never felt before.

Euthanasia from the bloody hands of god  
Threshold between reason and madness  
Sarcastic descriptions of existential cuts  
Dreaming behind insensible pane  
Suffering beyond the outside world  
Initial conditions bloom again

The reckless and unworshipping things  
That lives and seek and give  
No reasons for the torrid sentience  
Uncertainly as to whither own destiny was foreseen  
Before birth sentenced to sufferance

Leave me somewhere between faith and doubt  
Leave my loneliness unbroken  
Dirty souls in the worn bodies  
Tortured by nameless fears and longings  
Dread extinction and nothingness
