Again you open your mouth so quickly spewing out
Sentence fragments explaining your belief in fairytales.
Those superheroes- those pages of assholes
That supposedly set moral standards...
With every ancient text shit onto paper
Explaining how we live our lives
I could give less of a fuck what you believe...
But to each there fucking own-

There is nothing after this we are all going to rot

So I believe we are the godless we are the doomed

Too much of a good thing can make a man choke
So before I vomit take a step back you are not me

It takes guts to stand against modern day society
And we will never fall in the line with the fucking sheep.
Whom herd towards a relic forged in deceit placed in
pride
As a reminder of a finger that never stops shaking at
you
When in there eyes you have committed a wrong
against the cloth.

This is my rebuttal this is my counteroffer
I will fear you no fucking more.
