Eye to eye, I'll keep my composure  
Hands shaking and these fists will be tightly clenched  
I want it back, I'll say for the first time.  
Every ounce of fucking air you've never appreciated  
If this is all that I am a series of choice words  
You'll never hear this angelic voice again.  
I'm tired of talking in circles explaining what you don't  
get;  
You've never lost, never loved, never ever fucking  
lived.

You left me for dead once. How could I forget?  
Now I can see right through your hollow empty eyes,  
I will never again go unnoticed.

Say this is jealousy that I'm feeling well then I'm fine  
with that.  
You have a certain characteristic that gives you the  
means  
To not feel a fucking thing for anyone that isn't you.  
Now tell me you're not fucking selfish.  
For every kind hearted word that I spoke to you.  
I beg I could take back every syllable you ripped from  
my mouth  
As I screamed for you to understand.  
What it feels like to not be as important to someone as  
they are to you.  
Well I've been on both ends and my lesson was  
learned.  
So I tell the stories of collapsed lungs  
So maybe the fortunate could get a fighting chance to  
just cut and fucking run.

Fuck saying the right things- I'm sick of being your  
crutch.  
I will never pick you up again.  
Don't show me that face, you know the one that I'm  
talking about.  
You will never get under my skin again.  
Not another word. Not sorry for shit..  
I'm leaving you breathless broken alive
