You're not 17 no more, but you act just like you are
What the hell is that all about?
Did you hear a girl likes it loud
Oooh, honey

You don't come from London do you?
But sometimes you sound like you do
What the hell is that all about?
Did you hear a girl likes it loud
Well, honey

Don't dumb down for me
I'm not that kind of girl (x2)

Holding, holding on to nothing
Don't you see that darling
You can shake your fist and shout
There's some people that I can do without
Woah, honey

Don't dumb down for me
I ain't that kind of girl (x2)

It's just more of the same

Don't dumb down for me
I ain't that kind of girl (x2)

Don't dumb down, darling (x3)
