Sweetheart hooligan
Sweetheart hooligan
Kick out my bones and then
You take them home again

We won't talk about the day
We both lost our little way
We won't say we'll never love again
With empty hearts and broken brains

And I won't start apologising
Just hold my tongue, and keep my lies in
You go yours and I'll go mine
But we ain't nearly done
Sweetheart hooligan

My guy's heart don't feel regret
For chasin' you my cigarette
And I was never all that clever
But we can't stay this way forever
Take your heart back and make it better
Where you go I'll run

Sweetheart hooligan
Sweetheart hooligan
Kick out my bones and then
You take them home again

And where you go I'll run
'cause we ain't really done
