Stripping on twisted knives in miscreation  
Norway be my grave  
Increasingly insecure  
Combine with stagnant joy  
Half my life in your name  
Fucked up and ready to die  
Death just takes a moment  
Suffering is forever  
Let's leave this sinking ship together  
The water of life will fill your lungs  
Drink 'till you bleed  
When contradictions fail to soothe  
Half my life in your name  
Fucked up and ready to die  
Murder only takes a moment  
It'll last you forever
