"I Voldhanger"

Dreary bitter soulsets
Life runs painfully gray down the walls of time
Clenching onto the void
Laming intense shivering terror

Evolution of the mind
Severe plunging lightning
Cracking, trembling, reeling
The world left behind

(the) Beast hovering greedily
Waiting (insanely) to do me in
Struggling exhausted to the cold paramounds
Sliding down the razorblade of life

Evolution of the mind
Severe plunging lightning
Cracking, trembling, reeling
The world leaves you blind
