Desert... Night...
Red Eyes eats through
Coyotes Feel the Cold Wave of The Dark
A Strong Light - The Only Night
the Vast Nocturnal Landscape
from the Visions that Created The Force
This is where he made Sculptures

For the Flesh of Cain
Baphomet in Steel

A Throne made by remains

of 12 holy Disciples
New Disciples rose,
Knowledge fired across the Landscape
one by one, ten by ten
Sparks that mixed with Coyote Eyes
Diabolic Forces in a Ceremonial Union
All met under the Desert Moonlight
And each Beast of the Land

took its own way in Living
(the) Seven forbidden things
were Eternally Desecrated

Kathaaria was Built - World without End
