Hush hush, take a big bite out of everyone you know,  
And put your hopes aside, drag your ego through the  
snow  
Fetch a cold satellite dish, trouble's up the road  
You're eager to decide, hear the jingle never mind  
I'm a big fat bellied pig, running up the hall  
A sheriff of the night, oh it's easy when you call  
Make a trip to alaska, suffer when you fall,  
I'll suffer when you fall  
Hush hush take a big lump out of everyone you know,  
A victim of your smile, that's a starter for the show  
Shoot the big fat bellied pig, drag it through the snow  
There's trouble up ahead, makes it easier for you to go  
I'm a cold blooded bastard, running up your hall  
A sheriff of the night, dressed in purple, failed to call  
Quick to blame on the last one  
I'm sorry if you fall I'm sorry if you fall  
And I wont forget at all  
And I wont forget at all  
No I wont forget at all  
Noone ever needs you  
Noone ever needs you  
Noone ever needs you  
Noone ever needs you  
Hush hush, take a big bite out of everyone you know,  
And put your hopes aside, drag your ego through the  
snow  
Fetch a cold satellite dish, trouble's up the road  
You're eager to decide, hear the jingle never mind  
I'm a big fat bellied pig, running up the hall  
A sheriff of the night, oh it's easy when you call  
Make a trip to alaska, suffer when you fall,  
I'll suffer when you fall  
And I wont foget at all  
No I wont forget at all  
(Keep pushing the stars softly in background)
