I could go out every night, it makes me feel alright
That's exactly how he felt, distracted, not himself
And it's easier to strive when there's no one in the room
Your crack, you'll make it soon
That's another show for us to view
And you go on it's too soon
Yes you go on it's too soon for you
Silly, silly me

Yes it's sneaking up my back, I wont get fooled again
I'll take advantage of my size or push them from
behind
And you go on it's too soon
Yes you go on it's too soon for you
Silly, silly me

I'll make a mark, see me dressed up
Pretty blueprint of a lie
Wake Up Call

I could go out every night, it makes me feel alright
I could go out every night, it makes me feel alright
I could go out every night
I could go out every night, it makes me feel alright
I could go out every night
