They turn it on
I see them fall
Steal all their hope
It's under control
Tv beaming hell
This is their world to sell

Probing, searching, distorting
Kill to protect the stigmatised

He will come
Burned angels
Black wings
Black lungs
This is the world that will come

It's time to learn
Some things don't die
It's time to burn
Long-lasting lie
It's time to she'd
Your mask of rage

Black oily miasma
Swallow the poison
Kill to protect the stigmatised
